WORK EXPERIENCE

NTT Security

Technology Integration Engineer

OMAHA, NE (MAY 2016 - PRESENT)

- Directed the design, testing, troubleshooting, and validation of log transport agents from proof-of-concept to final release.
- Researched and created specifications for non-Rsyslog transport including REST APIs and database queries.
- Analyzed data from a wide variety of network and security devices to create parsing rules for security-relevant information.
- Composed detailed and consistent technical documents to ensure accurate parsing and future maintainability.
- Saved time and increased accuracy by creating CLI utilities with Python and web tools with JavaScript and Vue to automate tasks for multiple teams.

First Data

Intern, Assoc. Application Developer

OMAHA, NE (JUL. 2012 - MAY 2016)

- Troubleshoot production Java business intelligence reporting software to fix bugs and increase reliability.
- Reviewed in-house penetration testing results and implemented vulnerability fix patches.
- Cofounded and tracked stats for intern foosball league and created ongoing simulation for league continuity.

EDUCATION

University of Nebraska - Omaha

B.S. Information Assurance

MINORS: Computer Science , Mathematics

CERTIFICATIONS

CompTIA Security+ (June 2018)

SIDE PROJECTS

LIVE AUDIENCE VOTING

- Jackbox-style multiplayer game created to allow live audience voting via smartphone in comedy shows.
- Socket.io server for real-time communication with Vue.js frontend and physics-based D3.js vote visualization.

POWERRANK

- Fully responsive Vue.js single page app that calculates aggregate "power rankings" based on ranked-choice poll results.
- Node.js REST API backend using MongoDB.

POWERPOINT GENERATOR

- Procedurally generates PowerPoint presentations using a variety of local and API-based data sources.

SKILLS

LANGUAGES

JavaScript, Python, C#,
Shell Scripting, HTML5, CSS3, SQL,
Java, C, Assembly

TOOLS AND FRAMEWORKS

Vue.js, React, REST APIs, Linux, Git,
Express, Flask, Docker, MongoDB,
PostgreSQL, Socket.io, Vuex,
Webpack, Rsyslog, Unity,
Google Cloud Platform, Azure

OTHER

Technical Writing, Adobe Illustrator,
Blender, Slack API, Excel, Arduino,
Desktop Linux, Improv Comedy
